GROUPED DATA
(वर्गीकृत आंकड़े)

Frequency distribution of Plants according to their height:

Height (in cm)	Number of Plants
61	5
64	18
67	42
70	27
73	8

Frequency distribution of students according to age:

23. **Study the given table and answer the question that follows. The daily wages of 50 employees of a company is shown in the table. Select the correct statement from the following options.**

Daily wages Interval	Frequency (No. of Employee)
80-90	9
90-100	3
100-110	31
110-120	5
120-130	2

a) **The average wage of the employees lie between 80-90.**

b) **The average wage of the employees lie between 110-120.**

c) **The average wage of the employees lie between 100-110.**

d) **The average wage of the employees lie between 90-100.**

Scores	Frequencies
0-10	2
10-20	4
20-30	12
30-40	21
40-50	6
50-60	3
60-70	2

24. **Calculate the mean from the following table.**

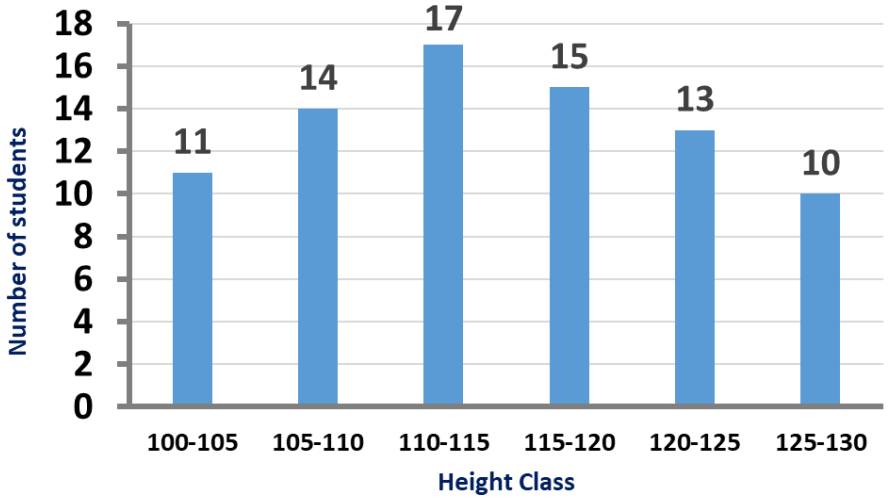

a) 33.4 b) 32.6
c) 35.8 d) 34.2

CGL T1, 9 Dec 2022 S1
CPO 2022 S3, 10 Nov 2022

25. **In the given histogram, what is the mean height of all students correct to one decimal place?**

a) 116.8 b) 114.7

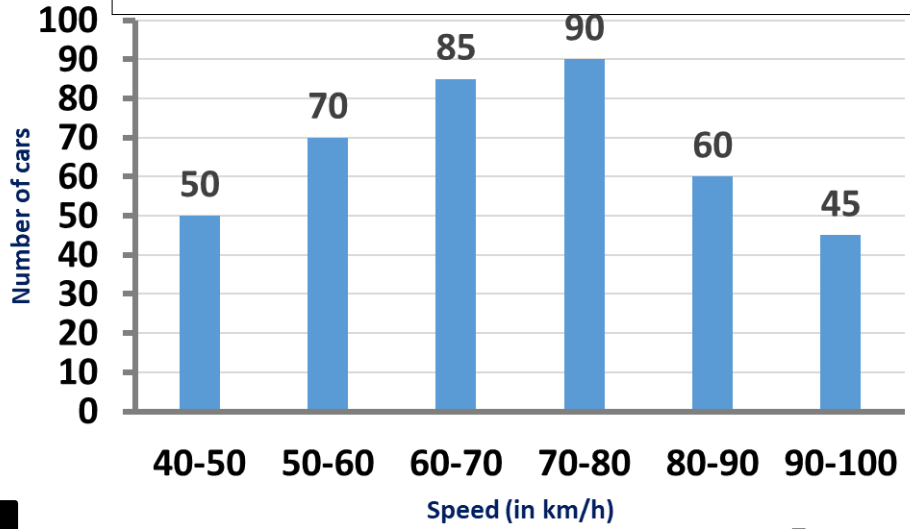

c) 116.2 d) 115.6

SSC CPO 2018

26. **In the given histogram, what is the mean speed of cars (in km/h) to nearest whole number?**

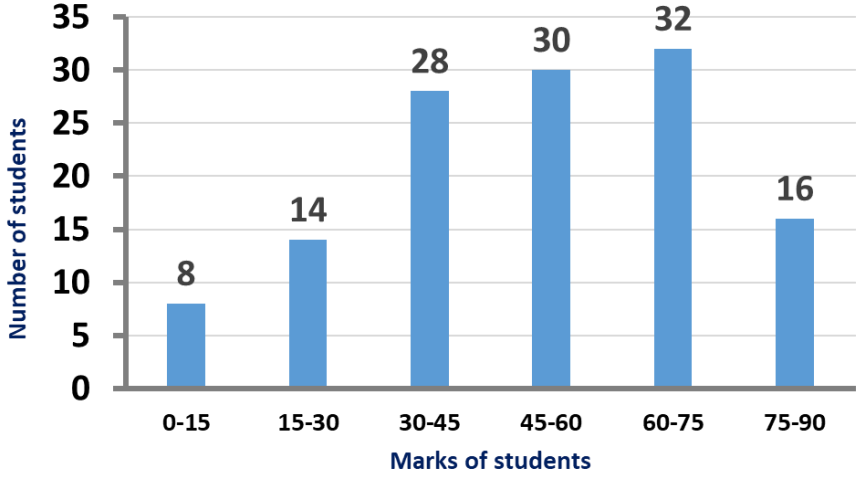

a) 69 b) 70 c) 72 d) 71

SSC CPO 2018

27. **In the given histogram, what is mean marks of the students, correct to one decimal place?**

a) 51.2 b) 53.5
c) 52.7 d) 50.6

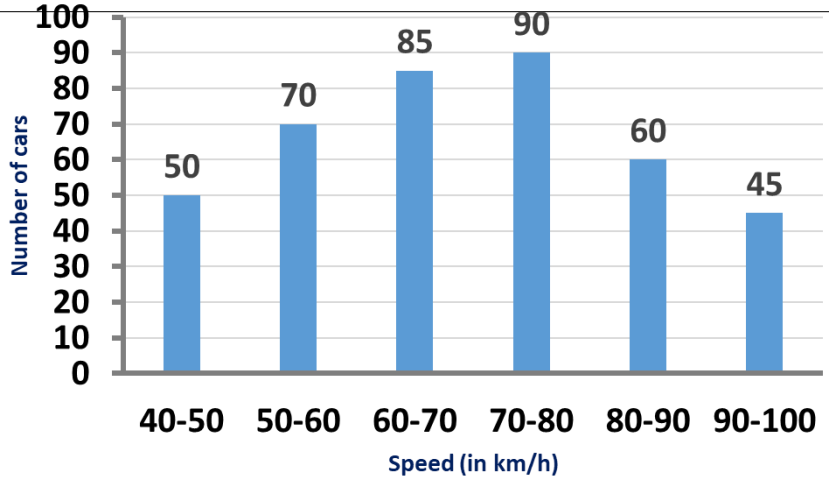

SSC CPO 2018

28. **In the given histogram, in which class interval, the median class lie?**

a) $70 - 80$ b) $60 - 70$

c) $80 - 90$ d) $50 - 60$

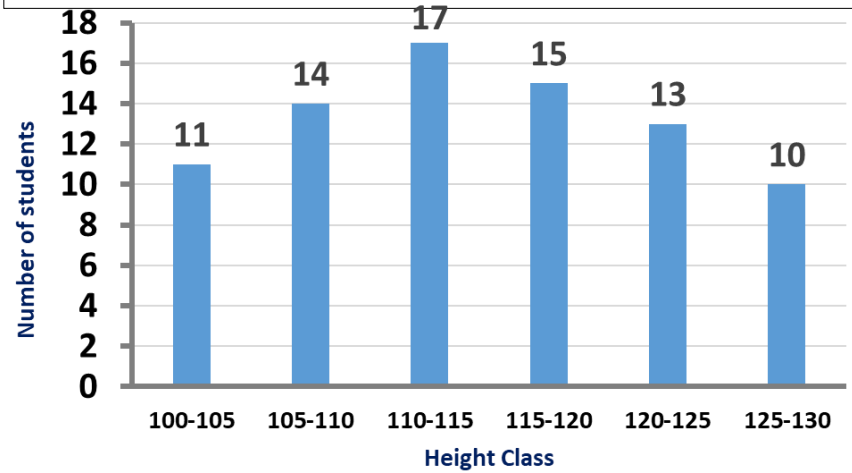

SSC CPO 2018

29. **In the given histogram, in which class does the median height of the students lie?**

a) $120 - 125$ b) $105 - 110$

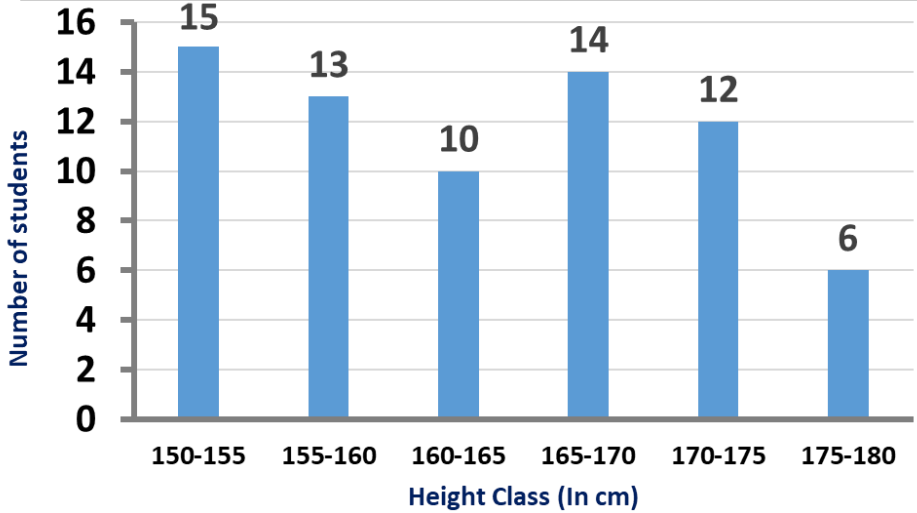

c) $115 - 120$ d) $110 - 115$

SSC CPO 2018

30. **In the given histogram, which class is the median class?**

a) $150 - 155$ b) $155 - 160$
c) $160 - 165$ d) $165 - 175$

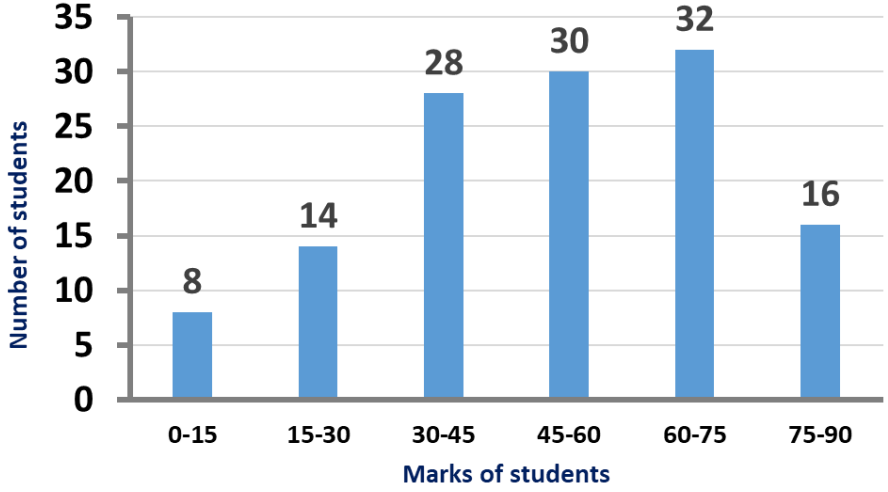

SSC CPO 2018

31. **In the given histogram, in which class interval, the median marks lie?**

a) $30 - 45$ b) $45 - 60$

c) $60 - 75$ d) $15 - 30$

SSC CPO 2018

Terminology:

1. Class interval (
2. Width of class/class height (
3. Frequency (
4. Upper limit ( )
5. Lower limit ( )
6. Median class
7. Modal class

Typical formula based questions

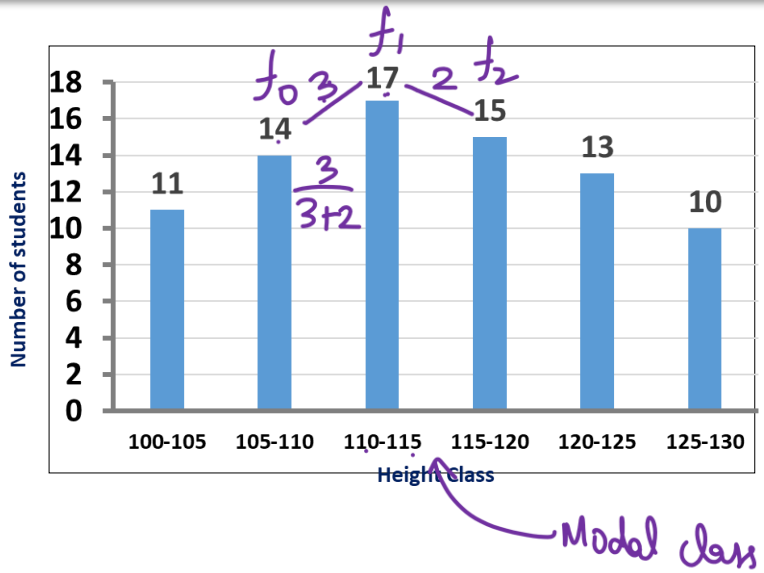

Median & mode in grouped data with class interval:

$$\textbf{Median} = l + \frac{\left(\frac{n}{2} - cf\right)}{f} \times h$$

$$\textbf{Mode} = l + \left(\frac{f_1 - f_0}{2f_1 - f_0 - f_2}\right) \times h$$

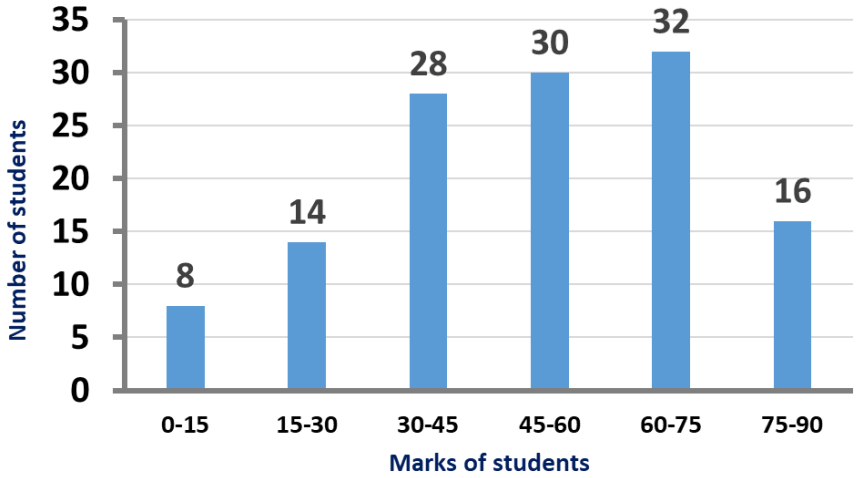

$= 110 + \dfrac{f_1 - f_0}{(f_1 - f_0) + (f_1 - f_2)}$

$= 110 + \dfrac{3}{5} \times 5 = 113$

$$1\,Mode + 2Mean = 3Median$$

In the given histogram, find the Median and Mode.

33. **Find the mode for the given distribution (rounded off to two decimal places).**

CLASS INTERVAL	5-10	10-15	15-20	20-25	25-30	30-35
FREQUENCY	8	7	6	9	11	10

a) 30.33 b) 40.25
c) 35.25 d) 28.33

CGL T2, 2 March 2023

34. For a sample data, mean = 60 and median = 48. For this distribution, the mode is:

a) 36 b) 18 c) 48 d) 24

CGL T2, 3 March 2023

35. **In a frequency distribution, ogives are graphical representation of**

a) frequency /
b) relative frequency
c) cumulative frequency
d) raw data

SSC CGL 2013 T-2

36. Calculate the mode from the following data.

Days of confinement	6d	7d	8d	9d	10d
Number of patients (frequency)	4	6	7	5	3

a) 7
b) 5
c) 6
d) 8

37. The distribution of 100 workmen employed in a factory according to their monthly salary, showed an average salary of ₹4, 500 per month. If the median salary is found to be ₹4, 900 find the mode salary. ?

a) ₹5, 600
b) ₹5, 500
c) ₹5, 700
d) ₹5, 800

?

1 Md + 2 Mn = 3 Mdn

mean

(? + 9000 = 14700

5700
